

W. & A. WELCOMES PROBE OF ROBERT AT WRECK SCENE

Chairman Candler, of Railroad Commission, and Inspector Kollock to Make Examination Today.

OFFICIALS DENY CHARGE CROSSIES ARE ROTTEN

Spreading of Rails or the Breakage of Part of Engine's Machinery Caused Accident, Believes Attorney Tye.

C. Murphy Candler, chairman of the state railroad commission; Inspector M. C. Kollock and other members of the railroad commission will leave for the wreck scene at 7 o'clock in company with President John Howe Peyton, General Manager of the Western and Atlantic Railroad, and others of the Nashville, Chattanooga and St. Louis railroad, the cause of the wreck of passenger train No. 26, of the Western and Atlantic, which occurred near Emerson, Ga., at noon Saturday, for the purpose of making an inspection to ascertain the cause of the wreck.

Chairman Candler, after leaving on Sunday morning that it was reported that the roadbed of the railroad was not in good condition at this point, ordered Inspector Kollock to go to the scene of the wreck and make an investigation.

Candler Makes Probe.
Inspector Kollock missed his train. Chairman Candler later decided to go to the scene himself on the invitation of Attorney Tye and President Peyton. He postponed an important engagement of Monday morning to make this trip when he learned that the officials of the railroad regarded as a personal inspection of the wreck.

Chairman Candler will return to Atlanta Monday afternoon, but it is expected that Inspector Kollock will be at the scene of the wreck for a week or more. The cause of the wreck is being investigated by the railroad commission and the state railroad commission.

"Reports show, and I have been assured by the railroad commission, that the Western and Atlantic is among the best in the state," said Mr. Candler, who has been receiving reports from the railroad commission, however, in some of which it was reported that the roadbed was in a defective condition. I immediately dispatched Inspector Kollock to the scene of the wreck.

Inspector Kollock, who was with the wreck, said that the cause of the wreck was the breaking of the rails, which was caused by the spreading of the rails, which is apt to be done in wet weather, or from some part of the engine's machinery breaking.

President Peyton and General Manager Carver, who were at the scene of the wreck, said that the cause of the wreck was the breaking of the rails, which was caused by the spreading of the rails, which is apt to be done in wet weather, or from some part of the engine's machinery breaking.

ALLIES PUSH GERMANS
ON THE WESTERN FRONT
BUT PROGRESS IS SLOW

It is Siege Warfare in Flanders and Northern France and the Allies Gain Ground at Great Cost—The Serbians and Montenegrins Have Again Pushed Into Bosnia and Are Threatening Sarajevo.

London, December 21.—(2:45 a. m.) A dispatch to the Exchange Telegraph company from Amsterdam says: "The Germans have evacuated Dismude, but the report that the allies have taken Middelkerke is untrue."

London, December 20.—The Germans, according to reports from Warsaw, over a wide front between the Vistula and the Pielica rivers, have reached the new Russian positions along the Bzura river and southward to Rawa, with the result that another big battle is in progress.

The Russians retired across the Bzura, destroying and burning behind them. Two German detachments followed over a partly burned bridge and are said to have been practically annihilated. Only survivors being taken prisoner.

Not only the beginning of the great battle for Warsaw, from which the Germans now are not more than 30 miles distant, but the Russian army is certain to offer. They are "pushed by the Vistula" river, which the Germans have been unable to cross.

NO GREAT VICTORY
FOR THE GERMANS.
The Russians are continuing operations against the Germans as though the German army is certain to offer. They are "pushed by the Vistula" river, which the Germans have been unable to cross.

BALKAN ALLIES INVADE BOSNIA

The Serbian and Montenegrin armies again have joined hands after defeat of the Austrians who invaded Serbia, and are now making their second advance toward Sarajevo, capital of Bosnia. The two armies, with supplies replenished by capturing the German junction near Vinograd, which the Montenegrins have occupied. They expect to be before Sarajevo within three or four days.

The first rebel party to pay the extreme penalty was Captain Faurie, a former officer in the Union Defense force, executed by the Montenegrins. This would seem to indicate that any of the officers of the Union Defense force who joined the rebellion, especially the leaders, will be severely dealt with.

HAVOC WROUGHT IN GERMAN RANKS.

Amsterdam, December 20.—(Via London.)—The Ru. Netherlands correspondent of The Telegraph says the following:

A dispatch says that violent fighting continues on the West. The British are playing havoc in the German ranks. From the front, wounded are entering Belgium more than three times as fast as they are leaving. The allies have not accepted the German terms. The fighting is raging between there and Ypres and the front is moving.

GAINS CLAIMED FOR THE ALLIES.

Paris, December 20.—The official communication issued by the war office tonight says that the allies have gained a little ground before Ypres and Saint George.

BRITISH DREADNAUGHT REPORTED DESTROYED

George Rottweiler Says the Thunderer Was Sunk in North Sea.

New York, December 20.—A report that the British dreadnaught Thunderer was sunk by a mine or torpedo in the North sea, on November 15, was brought here today by George Rottweiler, of Chicago, a passenger on the steamer St. Louis from Liverpool. Mr. Rottweiler declared the sinking of the dreadnaught was witnessed by eight men, members of the crew of a small Swedish ship called the Seeford, that later brought survivors from the dreadnaught into Liverpool.

These men were taken in charge by British officers and were kept under surveillance at an out-of-the-way "mail room" mission," said Mr. Rottweiler. "I heard of the report in a round-about way, and through a friend I managed to talk with one of the crew. He told me that the Thunderer blew up and sank in full view of the Seeford. The crew listened to the noise and a dozen or so of the men were picked up from the water."

Mr. Rottweiler says he is the Bureau representative of the Western Metal Products company, of Chicago. King Gustave of Sweden and King Christian of Norway, who, with their foreign ministers, were in London at the time of the sinking of the Seeford, are not listed in the Maritime Register, but they may be to her being a small boat, as indicated by the small number of the crew.

The meeting was inaugurated Friday with a speech by King Gustave, who allied to the unanimous desire of the kingdoms of the north to preserve neutrality, and pointed to the desirability of limited co-operation between the kingdoms as a safeguard to their common interests.
